About the College:

Marathwada Shiksan Prasark Mandal's R. B. Attal Arts, Science, and Commerce College was established in the year 1971 in the Georai taluka. The affiliating University of the college is Dr. Babasaheb Ambedkar Marathwada University Aurangabad. Making it a multi-faculty educational unit, the college spread over 27 acres of upland. And as well-furnished decorative buildings independent Library building, Hostel, and a newly constructed Indoor Stadium and 400 meters Track. At the same time, the college has progressed qualitatively by providing a large number of eminent successful alumni from every walk of life.

After its foundation, the college became a leading educational center in Georai taluka and a renowned college in the Marathwada Region for performing a vital role in educational, Social, and Cultural Development. In the course of the last 50 years, the college has imparted education in 04 UG programs (B.A., B.Com., B.Sc. and B.C.A.), 03 PG Programmes (Chemistry, Commerce and Political Science), 07 Certificate courses, and Two recognized Research center in the subject of Chemistry and Commerce in addition to this Research facility available in Marathi, Hindi, Botany, Physics and Physical Education. For all these programs more than 2500 students have been admitted with the recruitment of 31 regular teachers, 25 part-time teachers, and 79 visiting faculties.

The college realizes the importance of need-based regional, national and global level studies. Accordingly, the college has devised its programs covering basic, applied, and professional aspects with an emphasis on knowledge skills, social development, and employability.

Considering the needs of recent times and students' demand for an advanced and professional course, the college has introduced a variety of courses, such as Management Science, and Computer science. For conducting all these courses, along with traditional courses, the college has set up a huge infrastructure consisting of Classrooms, Laboratories, Library, Offices, Canteen, playgrounds, Gymkhana, Garden, etc. the entire campus always buzzes with a variety of curricula and extra-curricular activities.

About the Department:

The Department of Commerce is established on 15 June 1971. This is one of the important and independent departments of the college. This department has established a special entity in georai region. From the last many year, departments have been actively participating in different academic and social activities on the college campus and outside the college campus. We always try to build student carrier academically and socially. As a result of these efforts, we have given many academicians, politicians, administrators, businessmen, entrepreneurs, etc. to society. Many students from the georai region are associated with the college for their carrier. To accomplish, the desired objective of the department teachers, the principal of the college, and the administrative management of the college have been taking continuous efforts. The following are the department features...

Department has a separate infrastructure.

Department runs two-degree courses i.e. B.Com, BCA, and One Postgraduate Course i.e. M.Com. Highly qualified staff (5 teachers with Ph.D. and Two are Research Guide) Ph.D. Research Centre in Commerce, Separate Air Condition Computer lab with 30 Computers and LCD projector. Research Facility Good Research background in the department Optimum book in the library One department-level diploma course.

About the Seminar:

India has the largest agriculture sector which is spread all over the rural area of the country. The agriculture sector plays a very important role in the Indian economy for a long time. This economy is highly benefited by the huge agriculture sector and has been taken many economic benefits to the Indian society like Development of regional infrastructure, Employment, improved living standard, quality education, better medical services, etc. but from COVID time (last quarter of 2019) the entire world is suffering from the pandemic effect of COVID. To date, the virus has claimed millions of lives worldwide. Almost the entire economy of the world had been stopped. Manufacturing, Production, transport, tourism, agriculture, wholesale and retail sector, etc. are highly affected. Many countries announced the lockdown to the whole nation that starts recession period in all sectors of the economy. The government of India also has lockdown the entire nation from 20th March to 30th June 2020. As India has a huge agriculture sector and allied sectors of the economy get affected and created problematic situations for all. Production, Sale, Employment, etc. are going in very bad condition. The government of India has been taking the required efforts to survive these allied sectors of the economy by launching an announcement of schemes for everyone. This seminar aims to get innovative ideas from experts in the field of commerce, economics, and management of agriculture in rural areas after this critical situation of COVID to become atmanirbhar in farming or agribusiness. It also helped to spread innovative ideas among students, teachers, researchers, and farmers in rural areas. This seminar will share knowledge among the farmer society as well as multiplies several allied fields of agriculture.
